Re: Credentialing Application Approval

Dear Valued Provider,

We are pleased to inform you that your application for credentialing to participate in our network has been approved by our National Credentialing Committee, effective 04/26/2024. Please note, this effective date is only specific to your credentialing approval date. Your executed provider agreement date, specific to claims payment, will be provided separately.

What happens next?

Now that you are approved to join our network, please ensure you have a fully executed agreement with us. Unless otherwise negotiated or subject to your state requirements, your effective date to provide services to members is your credentialed date or your executed provider agreement date, whichever is later.

Your provider agreement is sent to the email noted on your application and/or your practice group administrator.

As a new provider, we encourage you to visit our website at www.carelonbehavioralhealth.com and the links below where you can review information relevant to the network(s) you have joined, including our provider handbook, register for our monthly provider trainings and download provider FAQs:
